

# IEEE TENCON 2018

*- Intelligence Outbreak -*

October 28 - 31, 2018  
Ramada Plaza Hotel, Jeju, Korea

## Important Dates

### Paper submission

May 21, 2018

### Notification of acceptance

July 23, 2018

### Final manuscript submission

August 27, 2018

IEEE TENCON is a premier international technical conference of IEEE Region 10, which comprises 58 Sections, 6 councils, 29 subsections, 663 chapters, and 1,431 student branches in the Asia Pacific region. IEEE TENCON 2018 is going to be held at Jeju, the island of breeze, Korea. The theme for TENCON 2018 is intelligence outbreak; researchers and engineers will be brought together from academia and industry, and they will freely expose their ideas and opinions on emerging issues in the field of electrical, electronics and computer engineering as well as information technologies.

**The scope of the conference includes but not limited to the following areas:**

- Antenna and Microwave
- Biomedical Engineering
- Circuits and Systems
- Communications and Networks
- Computational Intelligence
- Computer Systems
- Computing Technologies

- Devices, Materials and Processing
- Emerging Technologies
- Internet of Things
- Power and Energy
- Robotics and Control Systems
- Sensor Technologies and Applications
- Signal and Image Processing

Prospective authors are invited to submit full paper with four to six pages in double-column IEEE conference format via the conference website <http://www.tencon2018.org>. More information about paper format and guidelines for paper submission can be found at the conference website. The presented papers will be submitted to IEEE Xplore, which is indexed by major databases. TENCON 2018 will feature both contributed and invited papers. The best papers will be selected from the contributed papers for awards.

# IEEE TENCN 2018

- *Intelligence Outbreak* -

October 28 - 31, 2018

Ramada Plaza Hotel, Jeju, Korea

## About Jeju

Jeju Island is the largest volcanic island in Korea and it has a mild oceanic climate throughout the year with the smallest annual temperature range in South Korea. Officially called Jeju Special Self-Governing Province, this best tourist destination boasts mild weather, as well as scenic beauties of beaches, waterfalls, cliffs and caves. The island is 73km wide and 31km long with a total area of 1,848.85km<sup>2</sup>. Jeju is the largest island in South Korea.

Jeju Island is well known for its abundance of scenic natural wonders and cobalt blue sea. The island was designated as geoparks by UNESCO and is the world's first recipient of UNESCO's triple crowns in the fields of nature and science - Biosphere Reserve (2002), World Natural Heritage (2007) and World Geoparks (2010).

## Access to Jeju Island

Jeju International Airport, the 2nd largest airport in South Korea, is located in the north of Jeju Island. Jeju International Airport easily connects Korea with the major cities of China, Japan, and other Southeast Asian countries, via a total of 40 direct flight routes (13 domestic, 16 international, and 11 seasonal).

There are three ways to fly to Jeju Island: by direct international flight, by transferring at either Incheon International Airport or Gimpo Airport to a domestic flight to Jeju. IEEE TENCN 2018 secretariat recommends that visitors take a direct international flight to Jeju Island for their convenience.

## Direct International Flights to Jeju Island

International routes connect Jeju with 30 major cities in Asian countries (Bangkok, Beijing, Busan, Changchun, Changsha, Chiang Mai, Dalian, Guangzhou, Guiyang, Hangzhou, Harbin, Hong Kong, Kuala Lumpur, Manila, Nanjing, Nantong, Ningbo, Osaka, Seoul-Gimpo, Seoul-Incheon, Shanghai, Shenyang, Shenzhen, Taipei, Tianjin, Tokyo, Wuhan, Xian, Yangzhou, and Zhengzhou). With the exception of eleven countries, all international passport holders are able to enter Jeju.

## Via Incheon/Gimpo Airport to Jeju Island

Upon arriving at Incheon International Airport, passengers can either transfer directly to a domestic flight to Jeju, or travel to Gimpo Airport, which offers a variety of domestic flights.
