PART B - ORGANIZATIONAL ACTIVITIES

B.1 Membership Development Activities

- Total number of active members

The number of active members in Gwangju Section is 297, which is 10% increase from the year 2017. The following is the current member statistics

IEEE Grades	Associate Member	12
	Fellow	1
	Graduate Student Member	86
	Life Member	1
	Life Senior	1
	Member	130
	Senior Member	27
Other Grades	Student Member	33
	Affiliate	4
Total	SA member	2
		297

- Summary and evidence of work done to improve the value of membership, which leads to retention and growth of members
In 2018, in order to enhance the membership development, the student membership fee is supposed to be partially reimbursed with about \$10 for the first time member registration. But because the membership fee increase to \$27 after Aug. 15, we postpone the program to March 1 in 2019 so that more members can participate with less amount.

B.2 Professional and Continuing Education Activities

Number	Seminar

B.3 Affinity Group Activities

- Young Professional (YP)

Since 2016 when Young Professional Affinity Group (YPAG) was organized for the first time in Korea. currently, the number of the group members is 10. Some of active members are graduated so we need to promote member participation further.

B.4 Awards & Recognition Activities

- None.

PART D - GOALS AND PLANS

D.1 Goals and Future Plans

The number of IEEE Members in Gwangju Section suddenly increased up to 297 compared to 273 in year 2017, so the main goal is to maintain the number of members while continuing professional activities such as technical seminars. Especially, we will continue recruiting undergraduate students through pizza parties, seminars, and a few dedicated events for membership recruitment. In 2019, we plan to have more than 5 technical seminars and more than one huge event for undergraduate recruitment, and continue our effort to sustain the YPAG in Gwangju.
