Your services

This is a list of the services you are using at Contabo. It shows all details of the services, including the date the next payment for the particular service will be due. When this date is reached, your balance will be reduced by the monthly fee for the service. Please make sure that your balance is sufficient for these charges. The one-time setup fees displayed here are only for your information. They are deducted from your balance immediately after a service has been set up. You can find more information on your payments in the **Payment information** section.

Most services are billed monthly. Webspace packages and domains are billed yearly, however.

R10 Youtube Initiatives

Objective:

To better engage members and increase subscribers for new R10 YouTube channel, R10 Information Management (IM) Committee and R10 Newsletter Committee collaboratively initiate a regular pre-recorded interview session to share about R10 programs and to address concern questions raised by R10 section volunteer leaders.

This initiative will kick-off around April / May, when officers are in place and ready to begin their volunteering leadership roles.

Mode of deliver:

A focus topic (i.e. YP/ WIE/ Membership Development...) will be identified for each interview session. The respective R10 ExCom member will be invited for a pre-recorded interview.

The duration of the pre-recorded interview aim to be not more than 12-minute. After video editing, the recorded interview will be shared on R10 YouTube channel.
