Chairman, India Council

Message

Wishing you all a Very Happy and Successful New Year 2021 !! I wish to convey my heartfelt greetings and best wishes in the form of this message to all the members on IEEE Uttar Pradesh (UP) Section, and other readers of 2020 Annual Report of the IEEE Uttar Pradesh section. I congratulate members of the Section for voting in huge number and select the office bearer of 2021. Personally, I am very close to the UP section, as this is my parent section and I started my journey of IEEE in India from this section only. I was very closely associated with the IEEE UP section in various capacities and

witness the growth and the vibrancy of the section in almost all the facets of the activities. Needless to mention that, from the last few years the section is growing like anything and this year got the first rank in region R10 (Asia Pacific) & to get section incentive award of USD 4500. In terms of the IEEE related promotions, membership development, professional, technical, non-technical, social, networking, SIGHT, WIE, YP, students and other activities, the section made a mark, which is really distinct and eye-catching for all of us. As far as the professional and ethical practices are concerned the section is following a good benchmark. The section is associating so many young engineers, which is certainly beneficial for the research and development culture for the country and the society at large. I feel that the growth of the section is unstoppable now. I hope the section will continue to support all the IEEE members and keep promoting the real technical interests among the young minds of the section. The leadership under New UP Section Chair, Dr Satish K Singh, will add some more feathers to it. My best wishes for the ever growth of the section.

Chairman, IEEE India Council

Chairman, IEEE UP Section

Message

It is my pleasure to be a part of IEEE UP Section which has shown phenomenal growth in year 2020. I want to congratulate all the office bearers and members of Uttar Pradesh Section who have contributed significantly for making UP section very vibrant and marked noticeable presence on IEEE map globally. Even in pandemic time, the number of activities and events conducted by Section volunteers are remarkable. The growth in membership is more **than 20%** and number of activities has been increased by **three times**. We have also received several awards from IEEE like **Outstanding Section Membership Recruitment Performance Award, Section Incentive award of USD3500 and Outstanding Volunteer Awards of India Council**. The Section conference UPCON-2020 was also well organized in hybrid mode and good number of contributed papers were presented from all over the country along with some international contributions. I feel that the present Chairperson, Secretary and Treasurer undoubtedly brought the section at new level and have gone beyond the momentum of last year. Let us join me to recognize their dedicated efforts and time for betterment of Section. This year also was special for all of us as Section conducted first time Election and good number of Section members participated in this election with very high percentage of voting. I congratulate all the new elected office bearers of Uttar Pradesh Section for year 2021 and convey my best wishes to them for their successful tenure.

PART A – Section Summary

A.1 Executive Summary

IEEE Uttar Pradesh Section, which is one of the TEN sections in India and geographically covering three operations in Uttar Pradesh and Uttarakhand. The Uttar Pradesh Section is located in Region 10, and is represented at the India Council. Although the IEEE activities were started in the section from 1970 and it was the sub-section under the Delhi Section. It was the whole hearted efforts of Dr. G. K. Dubey that a full section could be formed named as “IEEE U.P. Section” in Decem-ber 1991, who took over as the first and the founder Chairman for the year 1992. Since then, the IEEE Uttar Pradesh section is continuously involved in promoting the IEEE and various technical fields of interest through various activities. The membership growth and number of activities in the section is strictly monotonic since its inception and is the only reason that today it is one of the most vibrant sections in India. Today IEEE Uttar Pradesh section is un-ignorable and having the strong leadership not only at India Council level but at Asia Pacific level too. Prof. S. N. Singh who was one of the past chairs of the section, India Council Chair, 2019 & 2020 and he represented at R10 level also in Vice-Chair and other capacities. Many other executive committee and other members are having representation at India Council and R10 level. The section received many awards and recognitions in recent years. It is very pertinent to mention here that section was ranked #1 among large Section Category in 2020 by Region 10. In last few years, many new student branches, branch chapters and affinity groups have been formed in the section. This annual report presents some facts and figures regarding vibrancy of the section in terms of the activities and membership strength in 2020. The next office may take a reference of this report and may plan the directions for 2021.

B.4 Section's Best Practices

New Conference/Workshop Format Adopted: From 2018 onwards IEEE UP Section adopted a new application format for conferences/workshops sponsorship to be organized in Uttar Pradesh Section. The format is very comprehensive and detail information is required from the event organizers. Various guidelines are also provided to the organizers for organizing the event in the best professional way.

Webex meetings: From 2018 onwards section again started the webex-based and hybrid (Clusters connected via webex) executive committee meetings to curtail the meeting expenditures and better participation of the members and FOUR out of EIGHT executive committee meetings were the webex/hybrid meetings.

Oversight committee formation: IEEE Uttar Pradesh Section continued to form an oversight committee consisting of 2-3 executive committee members for each and every conference/workshop organized in the section and technically of financially sponsored by the section. The member of oversight committee are the direct link between the section and the organizers. The conference organizers may seek any help or assistance from the members of the oversight committee members to organize the event professionally and ethically. The oversight committee used to visit the event in person and observe the entire professional process and conduct in terms of the technical quality of papers, key-note speakers, review process, schedule, and any other relevant thing. The committee provides the report to the section and executive committee decides the further course of action on the basis of the feedback being provided by the oversight committee.

Democratic decision making: IEEE Uttar Pradesh Section has adopted the democratic decision making process and any decision is taken by the executive committee only except few limited power to the section chair. All the decisions are taken after due deliberations among the committee members. All the resolutions are recorded by the secretary in minutes and circulated among all the committee members.

L31 Event reporting: IEEE Uttar Pradesh Section from 2018 emphasised the advance L31 event reporting and many reminders are being sent by the secretary to all the chairs/conveners and other members of in the section. In year due to this practice IEEE Uttar Pradesh Section received the 2nd position by R10 and got reward-ed with the USD3500. The section is pushing the organizers to report each and every event on L31 and this is adding the reputation and visibility to the section. Direct impression upon the practice of reporting the event on Vtool resulted over 850+ event reported in year 2019 and again the Uttar Pradesh section got awarded with USD3500 as and incentive grant.

Section website: IEEE Uttar Pradesh Section is continuously updating all the events and important information on the section's website to keep the users up-to-date about the sections activities and operations. The website address is www.ieeeup.org and excellent interface between the

event organizers and section. All the important forms and formats are being uploaded to the section's website.

E-newsletter: From 2018 onwards, IEEE Uttar Pradesh section started publishing the e-newsletter containing the information about the important events, achievements, messages, photographs, articles and many more which is relevant to the readers and appropriate for the section. In year 2018, two issues per volume and year 2019 FOUR issues per volume has been published by the section, circulated among all the members of the executive committee and uploaded to section's website. All the e-newsletters published by the section are available on www.ieeeup.org

WIE/SIGHT/YP/STD event promotions: From 2018 onwards, IEEE Uttar Pradesh Section promoted the women in engineering (WIE), Special Interest Group on Humanitarian Technology (SIGHT), Young Professional (YP) and Students' related activities in the section. The section through its conveners promoted and supported the formation of the respective groups in the form of branches, chapters, and affinity groups. In year lots of the SIGHT groups have been formed and new student branches added in the section. Large number of activities has been organized by these groups and good grants received for the same.

Support for Participation in events organized by other IEEE OUs: The section use to support the participation of its executive committee members to attend various IEEE related activities organized by other IEEE OUs as well. Many of its members participated in IEEE leadership program, AISYWC congress hyderabad, SYWL Congress in bagalore, and abroad. The objective of supporting them was to equip them with the required knowledge and best practices while conducting such activities in future by the section. These participants were also the ambassadors of the section and represented the section very well at R10 level.

Support for Participation in AISYWC: In year 2018 and 2019, IEEE Uttar Pradesh supported the few executive committee members and branch officers from interested and potential student branches to participate and represent the section in this congress. The purpose of this support was to provide the exposure to its student branches and promote such activities in the section.

IEEE Day Grants: In year 2019, IEEE Uttar Pradesh Section continued providing the support to its student branches to celebrate the IEEE Day. This year the grant was provided on the basis of the branch performance and the student branches having more membership strength and activities received more grants. This practice will create a healthy completion among the student branches and more and more technical activities may be conducted in future.

Financial Sponsorship to the Conferences: In year 2019, IEEE Uttar Pradesh section provided the financial sponsorship to the FOUR conferences to be organized in 2019. The purpose of providing the financial conference is to support and promote the reputed conferences in the section and involvement of the section in organizing such conferences.

DL activities: The section and its other organizational units invited many eminent persons throughout the world as distinguished lecturers under DL program by different IEEE societies.

Chapter and Member Driven Initiatives: The section and its other organizational units use to organize many such activities throughout.

Distributed venue for EXECOM: IEEE Uttar Pradesh Section adopted to conduct its executive committee meeting at geographically distributed locations in Uttar Pradesh and Uttarakhand to ensure the promotion of section and greater participation of the members in the meetings. This also provides the vibrancy in the section and members get motivated to extract the maximum benefit in terms of technical and professional competence.

Student activity committee: Amid the ongoing COVID pandemic, IEEE UP Section has formed its 1st section student activity committee, dedicated to enhance the membership experience of the student community. The committee has taken various initiatives, among which the most significant is the section SAC workshop titled "IEEE UP SSAC."

Transition to online: Following the safety guidelines during COVID pandemic, IEEE Uttar Pradesh Section has adopted the online mode for all its activities. And doing so, it has maintained the enthusiasm of its volunteers.
