- When IEEE was formed in January 1963, the number of Regions in the U.S.A. was reduced to 6, and Canada became Region 7. New Region 8 was formed comprising Europe, Middle East and North Africa. The rest of the world was Region 9 till 1966
- Region 9 was limited to South America and the “**rest of the world**” became Region 10 in 1967
- Southern Africa was transferred from Region 10 to Region 8 in 1981
