

Call for participation: 2022 IEEE Region 10 SYWL Congress

2022 IEEE Region 10 Student / Young Professionals / WIE / Life Member (SYWL) Congress will be held on 11~14 August 2022, in Jeju Shinhwa World, Jeju island, Korea.

The theme for this year is "Sound and Young Influence for World Leading". This congress provides an excellent networking and learning opportunity to all the IEEE volunteers to share their best practices and learn from others' experiences. We welcome IEEE students, young professionals, women in engineering and our life member volunteers to participate in the exciting event. We hope your support to encourage participation from your local volunteers who are interested to join this congress.

Please visit the website at: <http://sywl2022.ieeer10.org> for more information. Do not miss the opportunity to network and collaborate with all the energetic and experience IEEE volunteers. We appreciate if you can publicize the above link to your local members.

Date:	11~14 August 2022
Venue:	Jeju Shinhwa World, Jeju island, Korea
Registration fee:	USD 400
Website:	http://sywl2022.ieeer10.org
Contact	ieeer10sywl2022@gmail.com

Registration Selection Criteria

- Maximum number of participants open for around 300 delegates
- After you have sent in your registration, IEEE Region 10 SYWL Committee will review and select a minimum of 1 Student, 1 Young Professional, 1 WIE, and 1 Life Member from each IEEE organizational unit to ensure diverse representation and participation.
- Active volunteers who have contributed to Region, Section, IEEE will be given preferential invitations to register for the Congress.

Objective:

- Provide a platform for IEEE volunteers from different sections to network, interact and learn
- Train IEEE volunteers from different sections about activities, best practices, methodologies.
- Take back learning from the Congress to implement in your section, student branches, and affinity groups.

SYWL Tracks

- There is no restriction on the type of track you are expected to attend. For example: female participants not necessarily required to attend the WIE track(s).
- Graduating Students are generally encouraged to attend Young Professionals Track(s) to ensure a smooth transition. Young Professionals may also attend Student Track(s).
