How do we create additional VALUE from our DATA?

Four Product Categories Explored...

AskIEEE

- Knowledge search engine
- “RAG”* AI
- Answers Q’s based on IEEE info
- IEEE maintains IP ownership

ForeSight

- Derive Pubs & Conference Data
- Create Tech Trend Reports
- Market to CxO’s, Analysts

DataPort 2.0/3.0

A.I. Use Cases Digital Transformation

- From Data Warehouse to Knowledge Partner
- Understand Customer Interests
- Offer relevant solutions

* RAG: Retrieval Augmented Generation

IEEE DataPort

Valuable Tool for Research Data Management

IEEE DataPort™

WHY IEEE DATAPORT?

Store, search, and access standard or Open Access datasets up to 2TB.

[Learn More](#)

ACCESS DATASETS

Login for freely available Open Access datasets or subscribe for full access.

[Learn More](#)

SUBMIT A DATASET

Storing and sharing your datasets on IEEE DataPort is completely free.

[Learn More](#)

SUBSCRIBE

Subscribers may download all datasets or access them directly on AWS.

Getting to Know IEEE DataPort

Currently
>6,500,000 global users
>5,000 datasets!

Cloud Service Provider (AWS and/or others)

IEEE DataPort™

IEEE Web Interface

Digital Object Identifier	Link to manuscript	CCBY License	Metadata Cataloger
Store data, scripts & analyses	< 2TB per dataset	Easy to Use Web Interface	Data Challenge Manager

Data Analytics Community

Universities and Research Institutions

Government Agencies

Industry

Scholarly Authors and Conference Attendees

Datasets:

Span all areas of research (not just engineering)

- Bio-data
- Sensor data
- Weather data
- and many others

All formats accepted (except executables):

- Video files
- Images/photos
- CSV
- Audio files
- and many others

DataPort – some current statistics

- ~7M Users (cumulative)
- ~10K Users/DAY
- ~5,500 Datasets
- Over 90% of IEEE publications offer authors to upload their datasets
- Institutional subscriptions are gaining momentum

NIC* \$1M funding to DOUBLE usage in 2024

IEEE DataPort - Users

3 of 5 Top countries are from Region 10

India has the MOST USERS (~20%)

Top countries (#Users)

	<u>2022</u>	<u>2023</u>
• Bangladesh	57K	980K
• India	572K	547K
• Algeria	35K	437K
• Nepal	34K	195K
• Egypt	34K	136K
• USA		103K

IEEE DataPort 2023 Climate Change Contest

...Winner from China

...Runner-up from Meghalaya, India

IEEE DataPort™
Climate Change Dataset Upload Contest
Win \$10,000!
First Place will win \$10,000
2 Runners Up will win \$5,000
August 1 - October 31, 2023

LSDSSIMR: LARGE-SCALE DUST STORM DATABASE BASED ON SATELLITE IMAGES AND METEOROLOGICAL REANALYSIS DATA

IEEE Data Descriptions

IEEE Data Descriptions is a journal that publishes short articles on all aspects of data: data descriptors, data collections, and metadata. Its overarching purpose is to promote publicly available datasets (open access or subscription-based access) in support of reproducible science while at the same time bringing insights into the associated dataset, data collection methods, and data quality. The metadata collected provides enhanced dataset discoverability and creates a foundation for future data science tools such as auto-discovery and mashups.

<https://open.ieee.org/ieee-announces-6-new-fully-open-access-journals-and-3-hybrid-journals-coming-in-2024/>

DataPort Opportunities

- Upload your Data...Share...Get free DOI and make Data citable
 - Free uploads and downloads for Society Members
 - Normal charge for OPEN Access Dataset uploads
 - ALL Datasets available for download for a subscription fee for non-members and non-Society members
- Design and other Competitions Data storage and sharing
- We are looking for a few DataPort “Ambassadors” – 5 from each Region

“DataPort Ambassador” Roles

- Promote DataPort (and other Data products) in the region
- Gather and report on Region Data needs
- Local Point-of-Contact
- Maintain local KPI's
