A total of ₹ 4,05,000 was allocated to twenty-seven student branches associated with the section, empowering them to organize impactful initiatives and activities. Additionally, the section provided ₹ 25,000 to the IEEE JMI Student Branch and ₹ 1,00,000 to the IEEE Rajasthan Subsection to facilitate the organization of various technical, educational, and professional events. In spite of mentioned details, IEEE Delhi Section provided support of ₹55139/- to PR&P Standing Committee and ₹ 83147/- for membership Development Committee.

These contributions underscore the section's commitment to nurturing talent, promoting innovation, and enhancing learning opportunities for students and professionals across the region. Through this financial assistance, the IEEE Delhi Section continues to play a pivotal role in advancing knowledge, leadership, and collaboration within the IEEE community.

C.5 Best Practices of your Section (which you would like to share with other Sections for the benefits of members)

All OUs of the section reach out to each other for conducting joint activities which are of common interest. There is a lot of emphasis on regular reporting of the activities in VTools and also discuss about the same in every execom meeting. Execom meetings are conducted in different locations to cover maximum geographic area.

C.6 Problems anticipated and suggestions for solutions, if any

Over the years, it has been found that very few student members continue their IEEE membership after completing their undergraduate/ postgraduate course. We need to motivate the graduate students to become GSM members and later to full professional member.

PART D - GOALS AND PLANS

D.1 Continuation of project/activity in progress and their implementation plans

Delhi Section flagship conference, DELCON is being organized annually. The number of papers received in this conference have been increasing year after year. Section is in the process of opening new technical society/ council chapters and new student branche.

D.2 Goals and Future Plans

In 2025, IEEE Delhi Section plans to focus on following key areas:

- Strengthening connections with industry professionals, young professionals, members, students, and graduate student members.
- Implementing strategies to revive inactive student branches and student branch chapters.
- Promoting the elevation of eligible members to senior and fellow grades.
- Collaborating to achieve membership growth, with a target of 10,000 professional members, including 1,000 senior members, by the end of the year.
- Conducting at-least 1000 activities during 2025 by the Section and its Society Chapters, in addition to the activities conducted by the Students' Branches.
- Undertaking serious efforts to maximize the conversion of Students' Members to YP.
- Undertaking serious efforts to ensure 100% reporting of the activities on vTools

D.3 Any innovative ideas to make IEEE more creative and value added for sustaining the membership retention and recruitment goals.

In order to sustain membership retention, we need to focus on outcome-based activities and projects through which members can be engaged. Mentor-mentee programs may also be initiated to give broad perspective ABOUT ADVANTAGES OF JOINING IEEE. Some ice breaking sessions may be organized to raise awareness.

D.4 Business Plan for Sustainable Growth and Financial Stability.

Focus on Conferences, symposiums, major projects and membership development may help in achieving long term financial stability.
